E.C.S. Air system

The first compact cashless
system for MyKey and Mifare

experience + innovation

A great little combo system

E.C.S. Air is a cashless MDB system small in size but equipped with all the essential functions in a vending management, compatible with both **MyKey** cashless keys and **Mifare** technology (fobs, tags, stickers, cards, etc.).

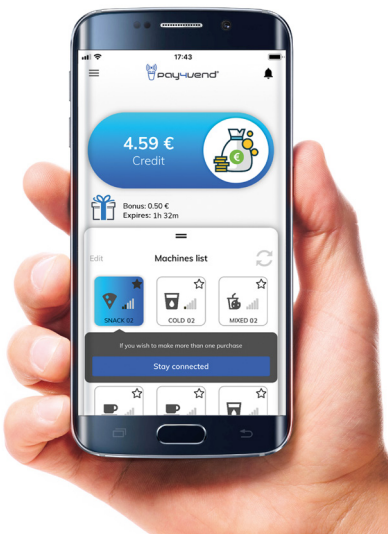

Blue LED lighted profile

E.C.S. Air is an integrated device that connects directly to the vending machine or to a master change-giver coin mechanism.

Compatible with MyKey keys and Mifare Classic and DESFire EV1

Ready for **pay4vend**®

E.C.S. Air system is also compatible with Pay4Vend, the new Coges application for **payment via smartphone**.

Use the Pay4Vend app as a loyalty card to reward your customers and increase their satisfaction by creating a direct relationship:

- Get feedback from users and respond quickly
- Simplify the credit refund
- Enable credit recharge by PayPal and credit card
- Plan marketing campaigns and targeted promotions
- Publish the ingredients list and information about health and fitness

Just add a small optional hardware module to enable all Pay4Vend capabilities.
